Thinking and planning the future in heritage management

Amsterdam, Netherlands, 11-14 June 2019

The UNESCO Chair on Heritage Futures at Linnaeus University, Sweden, and the School for Heritage, Memory and Material Culture, University of Amsterdam, Netherlands, in collaboration with ICOMOS International and ICOMOS Netherlands, will hold an ICOMOS University Forum workshop in Amsterdam, 11-14 June 2019.

The workshop will involve focused discussions among ca. 30 invited participants and professional presentations for a somewhat larger audience (posters and papers). The participants will include academics and heritage managers, both young and established, from many parts of the world. Publication may be possible via ICOMOS.

The available funding will be used predominantly to enable emerging professionals from disadvantaged regions of the world to attend. However, we will try to arrange to cover two or three nights of accommodation, if needed, for invited participants travelling from abroad to Amsterdam.

The workshop aims at promoting to think and plan the future in heritage management. How do we perceive the future? Which future do heritage professionals work for? What heritage will be needed in the future (and how do we know)? How can we build capacity in future thinking among heritage professionals worldwide?

We are now inviting all ICOMOS members, and specifically ICOMOS emerging professionals, to apply for one of 10 additional places at this small workshop (5 are reserved for emerging professionals).

If you are interested please write to Helena Rydén (unesco-heritage-futures@lnu.se) by **8 February 2019** including a 1-page CV and a 1-page statement on relevant experience and your specific interest in the topic *Thinking and planning the future in heritage management*. For emerging professionals, please also mention where you will be travelling from. We will be offering several travel stipends of up to € 1000 for ICOMOS emerging professionals.

Preliminary Workshop Programme

Tuesday, 11 June

3 pm: **Pre-Workshop Public Lecture** "Heritage and the future – where are we heading?"
Cornelius Holtorf, UNESCO Chair on Heritage Futures, Linnaeus University
