

ICOMOS

International Scientific Committee on Twentieth Century Heritage

September 12, 2018

ICOMOS International Secretariat
International Council on Monuments and Sites
11 rue du Séminaire de Conflans
94 220 Charenton-le-Pont
France

To whom it may concern,

In accordance with the regulations governing ICOMOS elections, I wish to nominate as my designated deputy a candidate for election as a Scientific Council Officer, Ms Sheridan Burke who is the Secretary General of the ISC Twentieth Century Heritage. Ms Burke's candidacy was unanimously supported by the annual meeting of the ISC20C held on September 2, 2018.

I have had the professional pleasure of working with Sheridan closely in my various roles as Secretary General and Vice President of ISC20C since 2005. She has generously provided leadership and support to the ISC Bureau during her years as President and has led initiatives that helped to build the ISC20C committee to its current strength of 180 members.

She initiated the ISC20C Emerging Professionals Mentoring Program, our original Heritage Alert program (now ICOMOS wide) and the ISC20C Heritage Toolkit. She was instrumental in developing the main item of doctrine for ISC20C, the Madrid New Delhi Document, which was endorsed by the General Assembly in Delhi last year. Sheridan has always shown sincere loyalty and commitment to all of our committee members as well as colleagues throughout ICOMOS, most recently serving as the President of the Advisory Committee.

I have always enjoyed working with Sheridan, her energy makes a significant contribution to every committee discussion, as I'm sure it will to the wider future of ICOMOS.

Sheridan's strong knowledge of the World Heritage Convention in operation together with her stamina and interpersonal skills make her an ideal candidate for the sensitive leadership position of the Scientific Council Officer.

Sincerely,

T. Gunny Harboe, FAIA
President, ICOMOS ISC20C

Sheridan Burke - Short Biography

Sheridan Burke is a Principal of Robert A Moore Architects and Heritage Consultants, based in Sydney, Australia. She has worked in cultural heritage management for more than 35 years - in urban planning, heritage and impact assessment and site interpretation. Sheridan holds a Master of Science in Architectural Conservation (University of Sydney). She is currently president of the ICOMOS Advisory Committee and Secretary General of the ICOMOS Twentieth Century Heritage International Scientific Committee. She is a Vice President of the DoCoMo Mo Australia working party. She was awarded Australia ICOMOS honorary membership in 2015. Sheridan is an Adjunct Professor at the University of Canberra, an expert member of the Sydney Opera House Conservation Council and its Expert Architects Panel.

Sheridan Burke, has been responsible for developing innovative conservation advice and plans for heritage places—iconic and local—for more than 35 years.

Sheridan Burke has specialist skills in providing practical heritage advice, managing historic sites and preparing conservation plans and impact assessments. She specialises in twentieth-century heritage place management and heritage interpretation, with extensive experience in providing strategic heritage advice in the public and private sectors as a project director and team member. Sheridan's experience includes providing strategic heritage advice for projects large and small, leading interdisciplinary local and regional heritage studies, preparing heritage significance assessments, conservation management plans, interpretation plans, heritage impact assessments and expert evidence, with numerous award-winning project outcomes.

Prior to joining Robert A Moore Pty Ltd, Heritage Consultants, Sheridan was a partner and director at GML Heritage; Senior Curator, Manager Property Operations at the Historic Houses Trust of NSW; and a Senior Policy Specialist at the Heritage Council of NSW.

Sheridan is a member of the Sydney Opera House Conservation Council and Eminent Architects Panel. She is Secretary General of the ICOMOS International Scientific Committee on Twentieth Century Heritage and President of the ICOMOS Advisory Committee. Sheridan is a widely published author and lecturer, active internationally, undertaking World Heritage site monitoring missions and providing advice to ICOMOS and UNESCO, as well as working on training, capacity building and research projects with the Getty Conservation Institute.

2018 Electoral Platform Statement for candidate for Scientific Council Officer Sheridan Burke, Secretary General 20th Century Heritage ISC

I've been an active member of Australia ICOMOS since 1978 and was elected to the international Executive Committee 1996-2005. I've always actively participated in the work of the Advisory Committee and the Scientific Council, particularly since becoming president of the Advisory Committee in 2015 when I was the President of the ISC Twentieth Century Heritage.

I'm standing for election as a Scientific Council Officer to continue my enthusiastic commitment to ICOMOS by:

- **Facilitating ICOMOS Scientific Dialogue:** I'd like to continue to reduce time spent in administration at annual Advisory Committee meetings so we can focus more on current scientific and emerging conservation issues that need international engagement and interdisciplinary discourse between ICOMOS members, committees and partners.
- **Refreshing ICOMOS Communications:** The ACOs currently meet monthly by skype to spread the workload and accountability, and I would support that approach continuing. Similarly, I feel that the pattern of regional, national committee and Scientific Council meetings being held separately, a day ahead of Advisory Committee meeting helps to facilitate efficient discussions and decisions.

This year I presented an ICOMOS Communications Plan to the Board to improve external and member communications. and also recommendations for co-ordinating a Heritage at Risk Observatory, both projects which I'd like to see through to implementation with committees and members during the next triennium

- **Engaging Emerging Practitioners(EP) in ICOMOS Succession Planning:** I'm an enthusiastic member of the EP Working Group and introduced a mentoring program in ISC20C to provide useful roles, experiences and opportunities for their professional development. As ISC20C Secretary General I'm personally implementing this commitment by facilitating the co-option of EPs onto its bureau and active involvement in all facets of ISC20C projects.

Sheridan Burke - Confirmation of Candidacy

Cc : 'Gaia Jungeblodt'

Objet : FW: Candidacy for Election as a Scientific Council Officer 2018 Sheridan Burke

Dear Gaia

I confirm that I am willing to serve if elected.

I understand that since I am no longer President of ISC20C, I am unable to stand for the post of President and/or Vice President – if elected as one of the 6 officers.

I am aware that all ICOMOS officers must finance their own participation at meetings including travel and living costs and that ICOMOS cannot provide financial support.

Kind regards

Sheridan
